what Mother Nature will allow with what the home owner wants. Sometimes the magic is that the job of landscaping succeeds at all.

In Washington the landscape contractors and architects seems to be getting better and better. The competition for this year's environmental landscape awards was the most heated ever. "In previous years the judges easily eliminated many of the entrants during the preliminary round because of their poor quality," says Beth Palys, the executive director of the Landscape Contractors Association, which sponsors the awards program. "But this year the judges didn't have it so easy."

GRAND

JJ Petro Landscape Contractors, Inc.
Mitchellville, Maryland
Bethesda, Maryland residence

To meet the home owner's desire for a more livable landscape, JJ Petro designed a swimming pool, two patios, and a woodland garden to the rear of the house. The driveway was cut back 10 feet to gain space for the new areas.
